### Profile

---

**MERN Stack** Developer with hands-on experience building responsive and scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in creating reusable UI components, REST APIs, and modern responsive interfaces. Passionate about building user-focused applications and collaborating in agile development teams.

### Education

---

**Bachelor of Science in Computer Science** | 2022-2025

Mahatma Gandhi Arts and Science College, Chendayad — Kannur University, Kerala

### Professional Experience

---

**MERN Stack Intern — Luminar Technolab** | 2025

- Contributed to multiple real-world project modules by developing responsive and accessible UI components.
- Improved user experience by applying best practices in HTML, CSS, JavaScript, React, Tailwind CSS, and Bootstrap.
- Collaborated with peers to maintain clean, modular, and reusable front-end code

### Projects

---

#### Clothing Management Application

- Developed a React-based clothing management system that enables users to manage items, reviews, and ratings efficiently.
- Implemented advanced search and filtering to enhance item discovery and usability.
- Enabled PDF export for wishlists and summaries, supporting informed purchase decisions.

#### Resume Builder Web Application

- Built a responsive web application enabling users to create and customize resumes.
- Utilized reusable components, centralized state management, and backend API integration.
- Enabled PDF export functionality and optimized layouts for cross-device compatibility.

#### Local Cancer Patient Support Donation Platform

- Developed a full-stack MERN application to connect cancer patients, donors, volunteers, and local healthcare resources.
- Implemented JWT-based authentication, donation tracking, and appointment scheduling to ensure secure and transparent coordination.
- Designed responsive UI components using Material UI (MUI) and Bootstrap.

#### Memory Master Game

- Engineered an interactive memory matching game using React and Material UI.
- Managed application state for card-flip logic and gameplay progression.

### Technical Skills

---

- **Frontend:** HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS, Material UI
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools:** Git, GitHub, VS Code, NPM

### Soft Skills

---

Problem-Solving | Team Collaboration | Adaptability | Time Management | Attention to Detail

### Languages

---

English | Malayalam
